MESSAGE FROM THE CHAIRMAN
Nepal Netra Jyoti Sangh, Central Executive Committee

It gives me immense pleasure to know that Institute is publishing annual report for the Fiscal Year 2022- 2023. Hira Lal Santudevi Pradhan Institute of Ophthalmic Sciences has established itself as a Center of excellence in the eye care sector, and is considered as one of the notable examples of community participation to achieve the noble objective of NNJS in providing high quality and high volume eye care services in affordable form to the rural population. In doing so, the Institute uses multi-pronged approaches as well as developing ophthalmic human resources for delivering quality eye care services in Nepal. The Institute takes pride in a cadre of adequate experienced ophthalmologists and has a good back-up of paramedical and administrative staff. The institute is committed to providing high quality eye care at affordable cost at all levels and places value on evidence-based decision making and findings of research and studies. We are thankful to all INGOs and the concerned stakeholders for their generous support and inputs to NNJS in developing and promoting eye care services in this country. I would like to express thankfulness to pro-active NNJS volunteers and dedicated staff of the institute who have worked for publishing this noble work.

I wish the every success of the Institute and very much look forward to continuing to build on our work together next year.

Thanking You

Prof. Dr. Chet Raj Pant

THE PRESIDENT

Nepal Netra Jyoti Sangh, Bagmati Province

It gives me immense pleasure to know that Hiralal Santudevi Pradhan Institute of Ophthalmic Sciences, Bharatpur Eye Hospital is bringing out its annual progress report for the year 2022-23. On behalf of the Nepal Netra Jyoti Sangh-Bagmati Province I would like to personally congratulate the entire team of Bharatpur Eye Hospital for all the progress and achievement done so far. Bharatpur Eye Hospital is one of the major contributor of eye care service in the province. I am pleased to see the growing progress of the hospital. I would like to thank all those who have contributed directly or indirectly for the development of the hospital.

EXECUTIVE MEMBER

Central NNJS

It gives me immense pleasure to witness the growth and development of Bharatpur Eye Hospital and it is good to know that all service parameters of the hospital have increased achieved more than ten thousand surgeries this year. I am very excited that we have been able to construct the well-equipped and facilities hospital building for pediatric department, OT and ward. This has been possible with the collective effort form BEH family, NNJS members Chitwan, Bharatpur Metropolitan city, Provincial government, SEVA Foundation and different local donors. I would like thank all those who have contributed directly and indirectly in the growth of the hospital and wish the further progress of the hospital in coming days.

IMMEDIATE PAST CHAIRMAN

Immediate Past President, NNJS Chitwan

I am filled with immense pride and gratitude for the journey we have made together. Over the years, our hospital has evolved into a beacon of excellence in eye care services within our province, a testament to the dedication and commitment of our entire team.

I am particularly proud of our hospital's achievements in establishing itself as a center of excellence, not only in clinical activities but also in the realms of continuing medical education, research, and publication. Through our collective efforts, we have contributed valuable insights to the field of ophthalmology and have remained at the forefront of innovation and advancement.

None of this would have been possible without the unwavering support and dedication of each and every individual who has been a part of this journey. To our dedicated staff, esteemed colleagues, benefactors, and supporters, I extend my deepest gratitude for your invaluable contributions and steadfast support throughout my tenure as Chairperson.

As I pass the torch to the incoming Chairperson and Hospital Management Team, I am filled with confidence and optimism for the future of Bharatpur Eye Hospital. I have every faith that under your capable leadership, our hospital will continue to thrive, innovate, and serve as a beacon of hope and healing for countless individuals in need.

In closing, I would like to express my sincere appreciation to each and every one of you for your unwavering dedication, passion, and support. It has been an honor and privilege to serve as Chairperson of Bharatpur Eye Hospital, and I am deeply grateful for the opportunity to have been a part of this incredible journey.

With warmest regards and heartfelt gratitude,

Krishna Raj Dharel

THE CHAIRMAN

President, NNJS, Chitwan

I am pleased to know that Hiralal Santudevi Pradhan Institute of Ophthalmic Sciences Bharatpur Eye Hospital is bringing out the annual progress report of the year 2022-23.

This year we have been able to provide OPD service to 2,39,895 and surgeries to 10,425 patients. In addition to patient care Bharatpur Eye Hospital as an institute is contributing in producing all levels of eye care human resources to tackle the growing burden of visual problem in the region and the country as a whole. We have started providing services from the newly constructed building which is well equipped and with good facility. The building is currently used for Pediatric OPD, Surgical department with high tech modular OTs and ward. This is the great achievement in the history of Bharatpur Eye Hospital. This has only been possible because of the hard working and dedicated staff members, guidance and support from the NNJS members and different stakeholders and donors.

THE ACADEMIC CHIEF

Dear Esteemed Colleagues, Friends and Supporters,

As we embark on the journey of recounting another remarkable year at our teaching eye hospital, my heart swells with gratitude and pride. It is my privilege to welcome you all to the annual report, a testament to the unwavering dedication and tireless efforts of our extraordinary team.

We feel very proud and honoured to mention here that we have been able to follow the right track to provide one of the best quality services to our valued patients and beloved students.

The hospital's recent achievement of obtaining the ISO certificate stands as a testament to the high standard of care we consistently provide.

The comprehensive services provided by the Community Outreach Department stand as a unique example of our commitment to delivering eye care services to targeted communities. Moreover, the successful completion of training for the second batch of 'Outreach Program Coordinators' is playing a pivotal role in enhancing nationwide outreach eye care services.

The academic and clinical performances of our residents and fellows have consistently excelled. Furthermore, the completion of ongoing research activities, along with the publication of scientific articles and the organization of Continuing Medical Education (CME) programs, speaks volumes about the remarkable achievements and progress of the institute.

We extend our heartfelt gratitude to our valued patients, who have placed their trust in us for quality service, students who have chosen us for their academic journey, and our well-wishers and donors for their unwavering support. Without your trust and support, achieving our goals would not have been possible.

Message from

CHIEF MEDICAL DIRECTOR (Outgoing)

It is with immense joy and gratitude that I reflect on the remarkable achievements of Bharatpur Eye Hospital over the past year. Despite the challenges presented by the COVID-19 pandemic, we have persevered, overcome obstacles, and emerged stronger than ever.

I am thrilled to share that we have successfully returned our hospital activities to normalcy, a feat made possible by the unwavering dedication and tireless efforts of our hospital management, dedicated staff, esteemed colleagues, and, above all, our patients. Your resilience, commitment, and unwavering support have been the driving force behind our accomplishments.

In particular, I am delighted to announce that we have not only met but exceeded most of our targets for the year. Our community outreach activities, vital to extending eye care services to those in need, have been restored to normal levels, allowing us to fulfil our mission of reaching and serving every corner of our community.

None of this would have been possible without the collective efforts of each and every member of our team. Your dedication, professionalism, and passion for our shared mission have been truly inspiring, and I am immensely proud to have had the opportunity to work alongside such exceptional individuals.

In closing, I would like to express my deepest gratitude to each of you for your unwavering support, hard work, and dedication throughout this journey. Together, we have accomplished great things, and I am confident that the best is yet to come for Bharatpur Eye Hospital.

With warmest regards and sincere appreciation,

Assoc. Prof. Dr. Sangita Sharma Bhandari
Chief Medical Director (Outgoing)
Bharatpur Eye Hospital

Message from

CHIEF MEDICAL DIRECTOR (Incoming)

I'm delighted to share the remarkable achievements of Bharatpur Eye Hospital over the past year and maintain the legacy paved by my predecessors. I congratulate outgoing CMD, Dr Sangita Didi for her great contribution for the significant progress and positive impact on the hospital services leading BEH to acquire ISO certified.

We've continued to provide exceptional care to our patients, restoring vision and improving well-being through compassionate service and state-of-the-art facilities. Our dedication to education and training has nurtured a new generation of eye care professionals, while our research initiatives have contributed valuable insights to the field.

None of this would have been possible without the support of our patients, staff, donors, and community. Your trust and contributions have been instrumental in our success.

As we look to the future, we remain committed to our mission of providing accessible, high-quality eye care to all. With your continued support, Bharatpur Eye Hospital will continue to thrive and make a meaningful difference in the lives of individuals and communities.

Thank you for your ongoing commitment to our shared vision.

Warm regards,

Bharatpur Eye Hospital

Foreword from

SR. HOSPITAL ADMINISTRATOR

It is with great pleasure and pride that I present to you the Annual Report for FY 2022.23 for our esteemed hospital. This year's publication encapsulates our ongoing commitment to excellence in the provision of eye care services and marks another milestone in our journey towards becoming the ultimate destination for eye care.

Our vision is clear: to cultivate an environment where patients receive comprehensive care, where education thrives, where communities are empowered, and where research drives innovation. This vision guides us as we strive for continuous improvement, embracing change, and reinforcing our systems to better serve those who entrust us with their sight.

Central to our success is the collaborative effort of our dedicated team comprising 180 staff members, including skilled ophthalmologists, compassionate nurses, diligent administrative staff, and various other professionals. It is through their unwavering commitment and teamwork that we are able to deliver exceptional care and support to our patients.

As we move forward, we remain steadfast in our pursuit of excellence. We are already implementing a range of initiatives in partnership with our eye care program, and we are poised to launch new improvement and sustainability programs to ensure that our services remain responsive to the evolving needs of our community.

I extend my heartfelt gratitude to our esteemed board members for their unwavering support and guidance. I also express my sincere appreciation to our dedicated staff for their tireless efforts and outstanding care, which significantly contributes to our patients' experiences.

Furthermore, I extend my gratitude to our patients, community members, stakeholders, partners, national and international agencies, and well-wishers for their invaluable contributions and continuous support. It is through our collective efforts and shared vision that we can truly make a difference in the lives of those we serve.

Finally, I extend my appreciation to all those who have contributed directly and indirectly to the compilation of this annual report. Your contributions are instrumental in documenting our achievements and shaping our future endeavors.

Thank you for your unwavering dedication and commitment to our hospital's mission. Together, we will continue to strive for excellence and make meaningful impacts in the field of eye care.

Warm regards,

Daya Shankar Chaudhary
Senior Hospital Administrator

Bharatpur Eye Hospital

Annual Report 2022-23

Background of the Hospital

Bharatpur Eye Hospital; BEH (Hiralal Santudevi Pradhan Institute of Ophthalmic Sciences) is located in the Chitwan District of southern central Nepal. BEH is a non-profit making, charitable organization under the umbrella of Nepal Netra Jyoti Sangh (NNJS). Its objective is to provide high-quality comprehensive eye care services at an affordable cost to local as well as patients from neighboring districts like Gorkha, Lamjung, Nawalpur, Tanahau, Makwanpur, Parsa & Dhading which comprises of about two million populations. In addition to Base Hospital located at Bharatpur Metro Municipality, BEH has established 3 Secondary Level Eye Hospitals and 18 Eye Care Centers at different places in its catchment area.

Bharatpur Eye Hospital was established in 1987. The hospital building was constructed with financial and technical support from the Bank of Commerce and Credits International (BCCI) Foundation Pakistan. The hospital was inaugurated jointly by the Late King Birendra Bir Bikram Shah Dev and the President of Pakistan, Ghulam Ishaq Khan on 31 March 1988. This was the only one eye hospital named after king, which was changed after Nepal attained Republic in 2008. BEH has an academic wing known as Hiralal Santudevi Pradhan Institute of Ophthalmology and is conducting residency in ophthalmology and fellowship programs in vitreo-retina and SICS in affiliation with the National Academy of Medical Sciences (NAMS). Similarly, it is conducting academic programs like Bachelor in Optometry (B Optom) under NAMS and Certificate Level in Ophthalmic Science under CTEVT Program.

Performance of Hospital in year 2022-23

OPD Performance

A total of **2,39,895** patients received eye care services from Bharatpur Eye Hospital (base hospital) and its networks that include secondary eye hospitals and eye care centers. Additional **96,257** patients were served through various outreach activities being conducted by Bharatpur Eye Hospital.

Surgical Performance

A total of **10,425** ocular surgeries of various categories were performed in the year 2022-23 at Bharatpur Eye Hospital and its Secondary Hospitals. Out of the total surgeries **9,197** (88.22%) were sight restoring cataract surgeries, including those performed through various DST and surgical camps.

Majority of the cataract surgeries performed in the hospital were phaco surgeries. **3,412** (32.73%) cataract surgeries were performed through various DST and surgical camps. Only 1,228 (11.78%) surgeries were other than cataract surgeries.

Categories	Number of Surgeries	Percentage
Cataract surgeries	Base Hospital	4,519
	BEH Outreach	3,412
	BEH- Secondary Hospitals	1,266
Retina	120	1.15
Cornea	505	4.84
Glaucoma	80	0.77
Oculoplasty	380	3.65
Pediatric	118	1.13
Others	25	0.24
Total	10,425	

OUR MISSION

Providing high quality eye care to prevent unnecessary blindness.

OUR VISION

Ultimate Destination for Eye Care

OUR VALUES

1. No one should be denied eye care for economic reason.
2. Competent and compassionate team.
3. Strive for continued improvement in all aspects of patient care.
4. Transparency in function.

Specialty Services at BEH

Retina Department

The vitreo-retinal department of Bharatpur Eye Hospital was established in 2012 by Prof. Dr. Raghunandan Byanju who is still the guardian for the progress of the department even after his retirement in 2021. The vitreoretinal department is combined with the Uveitis and ocular inflammation department and is jointly called the department of uveitis and vitreoretinal services. We have 2 consultants in the department who are trained in both departments, uveitis and vitreoretinal surgery. All standard equipment for patient care are available in the department as well as adequate training facilities.

The department has till date trained 6 fellows in vitreo-retinal surgery and has all hands-on training resources including teaching scopes in both the OPD as well as surgical microscope. It has facilities for green laser photocoagulation with additional facility of indirect laser Ophthalmoscopy. Also, the department of investigative ophthalmology includes a swept source OCT with OCT angiography along with fundus photography, Fundus Fluorescein Angiography (FFA) and high resolution ultrasound B-scan to support diagnosis and research in the department.

Vitreo-Retina Procedures

SN	Procedure	Number
1	General OPD- paying only	5627
2	LASER (paying only)	648
	a) Sectoral	104
	b) Barrage	74
	c) Focal	32
	d) PRP & fill in PRP	428
	e) YAG hyaloidotomy	10

4	Vitreo-retinal surgery	120
	Scleral buckling	6
	Buckle with vitrectomy	6
	Simple vitrectomy	54
	Complicated vitrectomy	38
	SFIOL	13

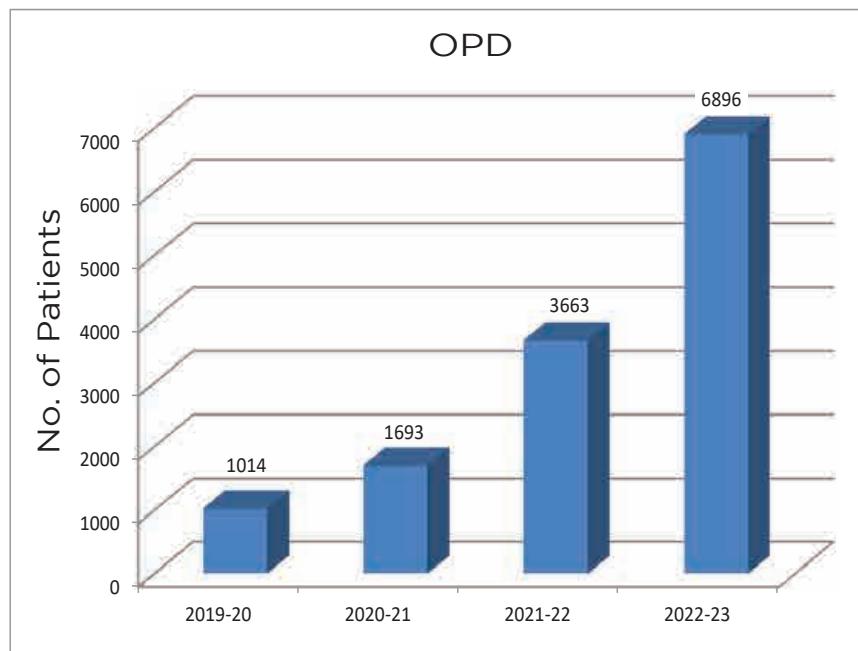

Glaucoma Department

The Glaucoma Clinic remains committed to delivering the highest standard of eye care, research, and education, in line with our mission to preserve sight and improve the quality of life for our patients.

The Glaucoma Clinic at Bharatpur Eye Hospital continues to be a leading center for the management and treatment of glaucoma. Our team of highly skilled glaucoma

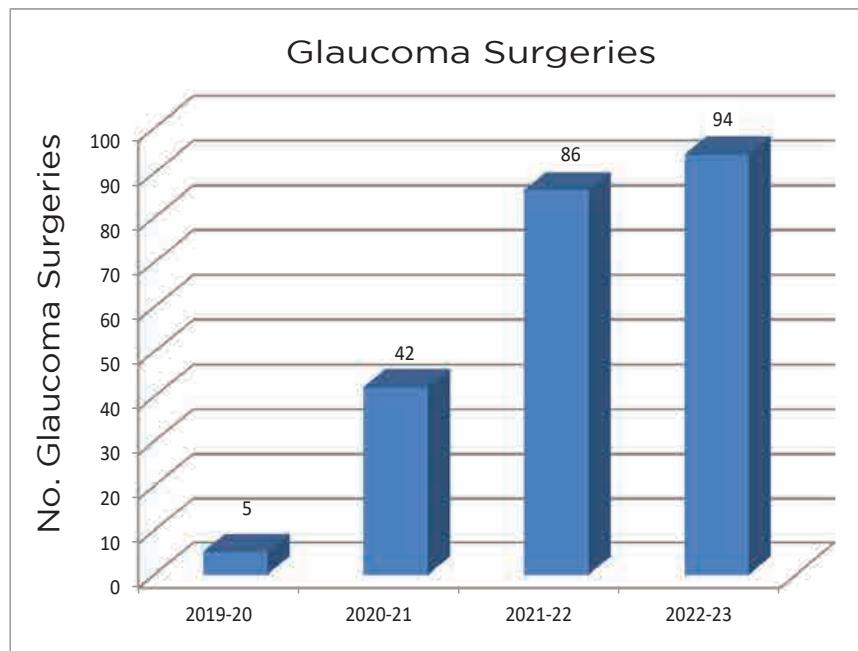

consultant, glaucoma fellow, residents, optometrists, perimetrist, ophthalmic assistants, and support staff work collaboratively to provide comprehensive and personalized care to patients of all ages. Department of Glaucoma is fully equipped with state-of-the-art diagnostic tools to diagnose and monitor glaucoma disease. During the reporting year, the clinic has grown both in patient volume and reputation.

Patient Care:

- Total Number of Glaucoma Patients Treated: **6898**
 - » Adult male: **3172**
 - » Adult female: **3645**
 - » Child male: **61**
 - » Child female: **20**
- Surgeries Conducted: **94**
- Types of Surgeries:
 - » Trabeculectomy: **14**
 - » Phaco + Trabeculectomy: **74**
 - » Cyclocryotherapy: **2**
 - » Revision surgery: **4**
- Glaucoma lasers conducted: **699**
- Types of lasers:
 - » Laser peripheral iridotomy (LPI): **651**
 - » Laser suture-lysis (LSL): **44**
 - » Argon laser-assisted LPI: **4**

Glaucoma Investigations:

- Visual field test: 1950
- Disc photo: 285
- Disc OCT: 1975
- Hood reporting test (OCT): 15
- AS-OCT: 5
- CCT: 2928

Pediatric Department

Pediatric Department was started as a separate department (0-16 years) on 2014, and it has come a long way in a decade. It started with 2 optometrist, now it has expanded its wings and proudly has its own Pediatric Ophthalmologist, an orthoptist, an Orthoptic trainee.

This department not only caters to the pediatric population (0-16 years), but is also taking care of the people with strabismus, and neuroophthalmological issues. Thus, from one department it has grown its subdivisions as Pediatric OPD, Strabismus and Neuro-ophthalmology clinic and Orthoptic clinic. We are here to serve the most challenging and rewarding population (Children, who are our future). In near future the department is going to add Vision Therapy Clinic.

Performance 2022-23

S.N	Particulars	Year 2021.2022	Year 2022.2023
1.	OPD	15976	17574
2.	Surgeries	95	105
3.	Training Activities	1 Orthoptist (1 year)	Short Term Orthoptic Training (1 month)-2
4.	Continue Medical Education (CME)	1	1

Cornea Department

Cornea department is one of the well-established subspecialty department at Bharatpur Eye Hospital. Since corneal diseases is one of the major cause of blindness in developing countries, BEH cornea department has been providing services not only to the people in Chitwan, but also the its neighboring districts. The department is equipped with major investigative instruments for diagnosis and treatment of ocular diseases. There is also dry eye clinic within this department, providing dry eye therapy for the patients. In the year 2022-23, a total of 517 patient underwent investigations for dry eye and therapy for dry eye was done for 645 patients. The cornea collection center and the facility of cornea transplant has been started since 2017. In the year 2022-23, 2380 patients were treated at the department and a total of 505 cornea related surgeries were performed. Pterygium with graft is the major surgery performed followed by major and minor corneal repair procedures.

Number of OPD patients	2,380
Number of Corneal surgeries	505
Number of Dry eye therapy	645

Oculoplasty Department

Oculoplasty is one of the subspecialties at BEH, dealing with the diagnosis and management of disorders involving the structures of the orbit, eyelids, tear ducts and adnexa. The Oculoplasty service is being provided by two Oculoplasty surgeons. Chalazion, Entropion correction and DCR are the common surgeries done. In this year 402 Surgeries were performed.

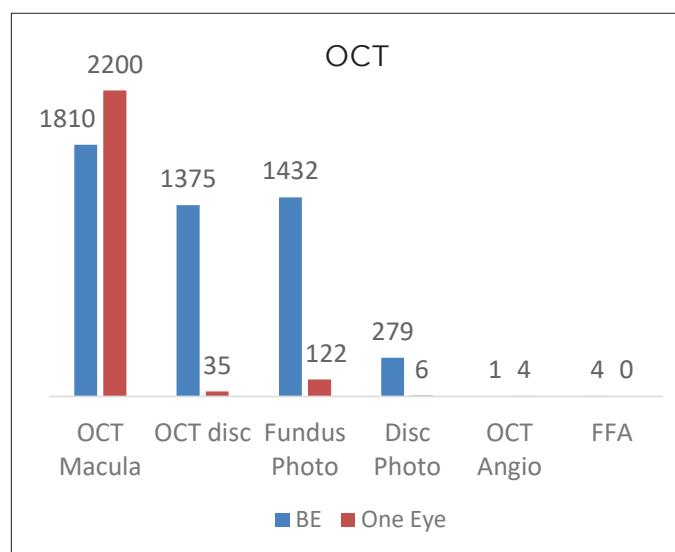

Type of Surgery	Number
Chalazion Excision	96
Entropion correction	52
DCR/DCT surgery	56
Conjunctival cyst/moll removal	63
Granuloma/mass excision	17
Ptosis correction	13
Enucleation/Eviceration	18
Lid repair	39
Lid mass excision	13
Others	35

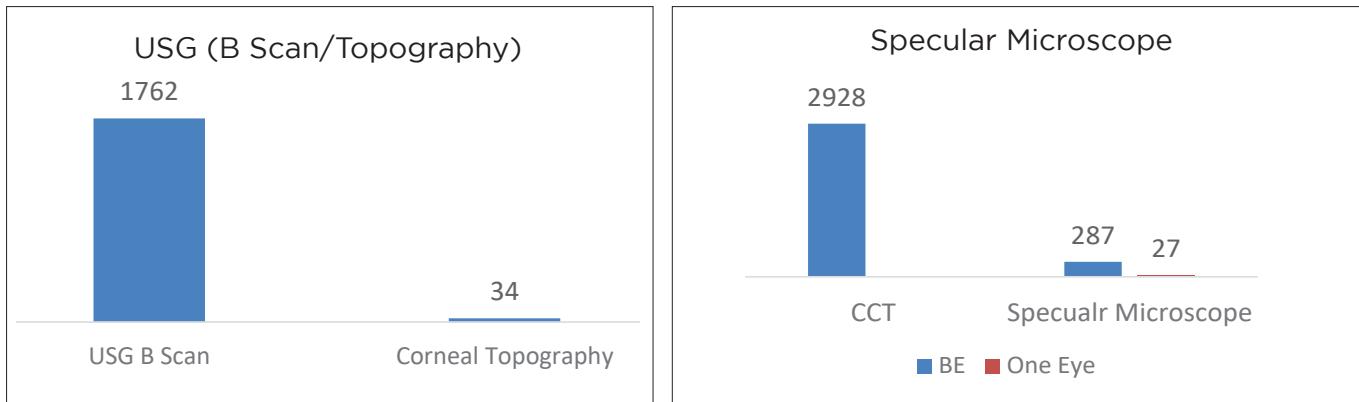

Investigation & Ocular Imaging Department

The investigative department is well equipped with almost all necessary investigative instruments for investigating different ocular conditions required for proper diagnosis and management of ocular pathology. Currently we have OCT, Fundus Camera, Corneal topography, Specular microscope, B-scan, A-scan, Keratometer, Anterior segment photography, Pachymetry etc.

Use Diagnostic Screening	Number
OCT Macula (BE)	1810
OCT Disc (BE)	1375
Disc Photo (BE)	279
Fundus Photo (BE)	1432
OCT Macula One Eye	2200
OCT Glaucoma One Eye	35
Fundus Photo One Eye	122
Disc Photo One Eye	6
OCT Angiography (BE)	1
OCT Angiography One Eye	4
FFA (BE)	4
Corneal Topography (BE)	34
Specular Microscope (BE)	287
Specular Microscope (one eye)	27
CCT (Central Corneal Thickness)	2928
B Scan (BE) (Ultrasonography)	1762

Low Vision Department

The low vision clinic is equipped with common low vision devices like monocular telescope, binocular telescope, spectacle magnifiers, and hand- held magnifiers, stand magnifiers, filters and non-optical devices. Low vision clinic has helped many patients to see better and use the residual vision to perform must needed daily activities. A total of 25 patients were provided low vision services in this year.

Contact Lens Clinic

Contact Lens are thin lenses placed directly on the surface of the eyes for refractive correction, cosmetic and therapeutic purpose. There are variety of contact lenses available based on its primary function, material, wearing and replacement schedule. Vision problems are pretty common in Nepal and people need some kind of vision correction device. Increasingly more people are turning to contact lens vision correction whether it is due to lifestyle or cosmetic reason.

In our hospital we provide services for the patient who wants Contact Lens for refractive correction, Keratoconous patient, patient having corneal problem with various lenses like power contact lens, disposable lenses, RGP lens, Bandage lens, and Toric contact lens.

A total of 118 patients took the contact lens service from the clinic in this year. The majority of the patients were prescribed soft contact lenses.

Soft contact lens	55
Bandage Contact lens	52
Prosthetic contact lens	7
Soft toric contact lens	1
RGP lens	3

Laboratory Services

Bharatpur Eye Hospital has a well-equipped and facilitated laboratory services for the patients requiring ocular surgeries to rule out any systemic association. Almost majority of all required laboratory investigations including culture and sensitivity are performed.

Investigation Type	Number of Tests
Blood Glucose	8,549
CBC	5,850
HSBAG	6610
HCV	6611
HIV I/II	6608
Mantoux Test	188
RA Factor	181
VDRL	183
Urine RE/ME	5823
Others	171

Outreach Eye Care Activities & Performance

Community outreach activities are the major activities of the hospital being conducted all the year round. In this year a total of 150 DST camps, 19 Surgical Camps, 11 DR camps, 136 school screening, 4 color vision test camps and 1 work place camp were performed. A total of 96,257 patients took their service through these outreach activities. 3,412 sight restoring cataract surgeries were performed through DST and Surgical camps, contributing to 37% of total cataract surgeries performed this year.

Performance of 2022-23 & Annual Plan for 2023-24

Basic Indicators	Achieved 21-22	Target 22-23	Achieved 22-23	Variance	Target 23-24

Number of Opinion Leaders Trained					300

Performance of Secondary Hospitals & Eye Care Centers

There are three secondary eye hospitals in different places run under Bharatpur Eye Hospital. In addition to the OPD services surgical facilities are provided at the secondary hospitals. Different outreach activities like DST camps, Surgical camps, School screening and eye health education trainings and awareness are also done through these hospitals.

Newly Established Eye Care Centers

Three new Eye Care Centers :

- 1) Ishwarpur Municipality, Bayalbas, Sarlahi
- 2) Rapti Municipality, Bhandara, Chitwan
- 3) Aabukhairen Rural Municipality, Aabukhairen, Tanahun

were established in the year 2022-23 with a aim to provide primary eye care to the community people. The eye care centers have been established in collaboration with the respective municipalities and support from SEVA.

Research and Publications

Village Integrated Eye Workers Trial (VIEW)

This research project started in 2014 in collaboration with **University of California San Francisco, F.I. Proctor Foundation, SEVA Foundation** and Bharatpur Eye Hospital. Starting from the year 2014, VIEW has implemented different phase of its study activities (VIEW-I, VIEW-II Pilot, VIEW-II Screening, VIEW-II Final Exam- ongoing and SightLife blindness prevention program- ongoing). VIEW-I and VIEW-II Pilot is already completed and some of the papers have been published.

VIEW-II Screening:

This phase is the initial screening phase for VIEW-II from 2019-2023. This is cluster randomized trial to identify if an intensive screening with OCT and linkage to care can reduce the number of blindness due to Glaucoma, DR and ARMD compared to no intervention area in individuals 60 years and above. The final census will be done to find the cause of blindness in the community. Study area includes Bharatpur Metropolitan, Kalika Municipality, Ratnanagar Municipality, Khairahani Municipality in Chitwan district and Gaidakot Municipality, Devchuli Municipality, Kawasoti Municipality, Madhyabindu Municipality and Binay Triveni Rural Municipality-1 & 2 in Nawalpur District.

Statistics: June, 2019 - May, 2023

Category	Number
Study Ward	106
Total Clusters within study area	317
Clusters Screened	161
Total People Enumerated at census	2,19,283
≥60yrs people enumerated at census	64,328 (29.34% of total enumerated)
Eligible participants	27,570 (42.86% of ≥60yrs people)
No. of participants screened	20,096 (72.89% of eligible participants)
Referral	4,969 (24.72% of screened participants)
Referral attended to BEH	3,058 (61.54% of referred)

Screening Registration

OCT Screening

VIEW-II Final Exam: VIEW-II Final Exam is the wrap up exam of VIEW-II screening started from June 2023. A repeat census is conducted in all clusters 4 years after implementation of the screening intervention. Census workers update vital status and demographic data collected at baseline and add all new community members. Visual acuity is assessed for all participants ≥ 50 years old following the same procedures employed at baseline. Participants who have pinhole visual acuity worse than logMAR 0.48 (Snellen equivalent 20/60) in either eye at the time of the final census are offered an eye examination consisting of VA/refraction, IOP assessment, visual field assessment and anterior and posterior segment visualization at the community, performed by a trained team of optometrist and ophthalmic assistant masked to treatment assignment.

Statistics: June 2023- July 2023

Category	Number
Ward Completed	5
Clusters Screened	22
Total eligible participants	527
No. of participants screened	411 (77.98% of total eligible participants)
Referral	244 (59.36% of total screened)

SightLife Blindness Prevention Program:

This aim to find the effectiveness of Female Community Volunteers (FCHVs) in preventing corneal blindness due to trauma. This was a three years study which ended in 2017 with the result that FCHVs intervention was effective in reducing corneal opacities due to ocular trauma in the rural communities than peri-urban or urban communities. Latter since September 2017 SightLife took this research as a corneal prevention program, where trained 117 FCHVs from 12 VDCs (Kathar, Kumroj, Birendranagar, Amarapuri, Pragatinagar, Devchuli, Agyauli, Deurali, Dhaubadi, Narayani, Nayabelhani and Kolhuwa) are involved in detecting and treating corneal abrasion due to trauma with prophylactic antibiotic ointment in their communities and appropriate referrals to eye care centers or eye hospitals. 4 field supervisors involved in monitoring those FCHVs.

Statistics: July, 2022 - June, 2023

Category	No. of cases seen by FCHV	Percentage(%)
Total Cases Seen	4,290	
Abrasion Detected	2,681	62.49
Total Referral	257	5.99
Other Cases Seen	1,609	37.50

SEVA : Call for Ideas Project

Bharatpur Eye Hospital in leadership with Dr. Manisha Shrestha, Pediatric Ophthalmologist and team were successful in receiving the award worth \$ 50,000 for **SEVA'S CALL FOR IDEAS TO USE TECHNOLOGY TO EXPAND ACCESS TO EYE CARE SERVICE-2023."** For the proposal of using ***optimum screening technology for diagnosing childhood vision loss in resource limited settings.*** In this project we are using screening devices, spot vision screener and blinq to screen amblyopia and strabismus in the children aged 3-8 years and linking them to care. As a pilot project currently we are implementing the project in ward -5 of Bharatpur Municipality. This project was formally implemented in September 2023 and till date (February 2024) we have been able to screen 719 (84.98%) children out of 846. 144 (20.03%) kids have been referred out of which 94 (65.27%) of the kids attended the hospital for treatment.

Personnel Involved in the Study:

Name	Role
Dr. Manisha Shrestha	Principal Investigator, Pediatric Ophthalmologist
Gopal Bhandari	Facilitator
Sadhan Bhandari	Facilitator
F.I.Proctor Foundation and Dr. Julius Oatts	Supporting Partner
Referral Tracking Unit	
Debaki Acharya	Ophthalmic Assistant
Community Screening Unit	
Deepak Yadav	Ophthalmic Assistant
Prakash Malla	Ophthalmic Assistant
Supporting Staff from Pediatric Department	
Sajani Kayastha	Orthoptist
Pradeep Subedi	Orthoptist Trainee

Safety and effectiveness of laser suture-lysis after initial trabeculectomy or phaco trabeculectomy in patients with glaucoma

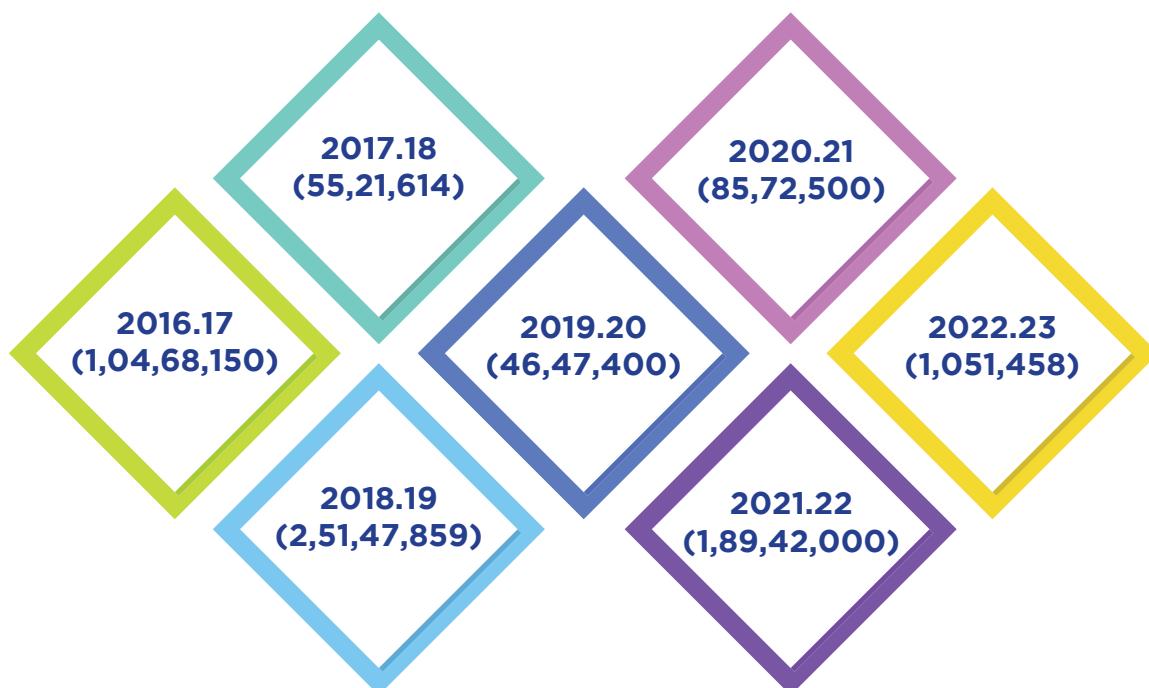

Hospital's Contribution

Referred for Subsidy 2022.23

Bharatpur Eye Hospital encourages patients to pay for services as much as possible. However, keeping in mind the socio-economic realities, BEH does offer subsidized or completely free services to poor and deserving population. As a policy, BEH does not deny eye care to any person based on any demographic, regional, social or economic denomination. NRs. **1,051,458** has been contributed by the hospital in the year **2022.23** in different heading subsidy.
